208 Die On Roads As Toll Mounts

'Keep Your Chin Up'

Marty Brennan holds an autographed picture of his idol, Notre Dame Football Coach Terry Brennan. Marty, the Levittown boy who had his arm amputated following an accident, received the picture from Coach Brennan, yesterday. The grid coach tells Marty to "Keep your chin up, no matter what the odds." A fund to help finance the boy's college education has reached \$1,633. (Courier and Times Photo)

New Charges Hit Ousted Red Group

MOSCOW (UP)—New charges were leveled today against the deposed Stalinist "anti-party" group and it appeared certain they faced final expulsion from the party, if not trial on capital charges.

The government newspaper Izvestia today charged that the

group, "especially Georgi Malenkov," had sabotaged Soviet farm programs for years.

The new denunciations, added to the list of earlier accusations, apparently indicated further punishment was in store for Malenkov, V. M. Molotov and Lazar Kaganovich.

(Radio Moscow in an English language broadcast heard in London denied reports Malenkov, Molotov and Kaganovich had been arrested. It said all three attended a Communist Party meeting in Moscow Friday where they were denounced for their "anti-party" activity.)

Fate Unknown

The public outcry against the disgraced trio was mounting in intensity and ferocity across the length and breadth of the Soviet Union. The campaign already has written an ignominious end to the (Continued on Page 3, Col. 1)

Levittowners In Car Suit

A passenger riding in a Levittown man's car when it crashed in Burlington is seeking \$25,000 in damages from his former driver.

Daniel McMenamin, 73 Hollywood Lane, Holly Hill, is bringing the damage suit against Joseph Socoloskie, Levittown.

The suit explains that Socoloskie's car on Aug. 31, 1956, suffered injuries of the back, head, neck, arms, legs and chest. McMenamin claims that Socoloskie was "going too fast" and didn't have the car under control when it crashed into another vehicle on Copie St., Burlington.

He says he may have suffered permanent injuries to his nervous system and may not be able to follow his occupation.

LPRC Schedules Pool Dance For Youngsters

The second outdoor dance sponsored by the Levittown Public Recreation Association will be held tonight at 8:30 at the Country Club swimming pool.

Sidney Charles, chairman of the LPRC youth activities committee, announced today.

Prizes will be awarded to the best-dancing boy and girl. There will be no admission charge.

Atomic Blast Lights Up Sky For 300 Miles

ATOMIC TEST SITE, Nev. (UP)—A dazzling blast equal to the force of 75,000 tons of TNT left westerners today with a faint glimmer of what an atomic conflagration could be like.

The detonation yesterday of atomic device Hood hit areas hundreds of miles away with the double-barreled effect of light and sound.

The flash, appearing sun-like over the arid wastes of the Atomic Energy Commission's test site near Las Vegas, created a false dawn in Los Angeles some 300 miles westward. Observers from as far north as the Canadian border and south to the Rio Grande saw the glow.

Twelve hundred miles from the test site, over the Pacific, an airline pilot reported seeing the light.

Sleepers Startled

Hood's sound, traveling in the wake of the flash, came as rumbling jolts. They startled thousands of Los Angeles area residents from their beds 25 minutes after zero hour at 4:40 a.m., p.m.t.

First reports said there was no damage to private property. But 12 hours later the AEC learned shock waves bouncing off a thin layer of air below the stratosphere had shattered windows and dented metal sides of buildings at a mine 35 miles north of the test site.

Seismographs at the California Institute of Technology in Pasadena recorded the awesome explosion a minute after it occurred. Its seismographic magnitude was not revealed for security reasons.

Heat estimated at nearly a million degrees Centigrade was an added effect of the detonation. The intense heat set fire to brush on the slopes of a small mountain ridge several miles north of Ground Zero.

Fallout Reported Minute

Despite the size and power of the device, whose force was 55,000 tons of TNT more than that of the atomic bombs dropped on Japan in World War II, the AEC reported the radio-active fallout was minute. Areas outside the proving grounds were reported "clean" of radio-activity less than six hours after the blast.

A unit of 2,000 Marines participating in the test, entrenched about three and a half miles from Ground Zero, withstood the blast without harm.

The device was the largest ever fired in the United States. Its runner-up, a device detonated in 1953, had a force of 60,000 tons of TNT.

Mild Weather Is Predicted

Sunny skies, comfortable temperatures and low humidity was expected generally throughout Pennsylvania today with temperatures ranging from the upper 70's in western and central sections of the state to the low and middle 80's in eastern and southeastern portions.

Clear and cool weather was expected for tonight with temperatures in the 60's and 70's.

Truman Library Dedication Draws National Personalities

INDEPENDENCE, Mo. (UP)—Former President Truman climaxed years of planning to preserve his official papers in the dedication of the Truman Library today.

The former President, the center of as much attention as he has had since leaving the White House, will present the 21-million dollar library and contents to the government in ceremonies this afternoon.

Chief Justice Earl Warren will be the main speaker at the ded-

Indonesians Preview the New Blast Furnace

(right) supervisor of employee service, showed them plans for Patricia, the third blast furnace under construction. (Courier and Times photo)

Ike Relaxes With Guests At Gettysburg

GETTYSBURG, Pa. (UP)—President Eisenhower relaxed at his farm here today with weekend guests who are experts in two of his favorite pastimes — golf and bridge.

Both games were likely to be on the agenda today, just as they were Friday when Gen. Alfred M. Gruenther and H. B. Alton Jones and their wives arrived for the weekend.

Jones, a Cities Service Oil Co. executive, arrived in time to tee off for a late afternoon round of golf with the President and two Gettysburg neighbors, George E. Allen and Gen. Arthur S. Nevins.

Gruenther, whose forte is bridge arrived after the 18-hole match started. But he caught up with the foursome and walked around the rest of the course with them.

Gruenther, former NATO commander and now president of the American Red Cross, recently returned from an inspection of the Louisiana hurricane area.

He probably will give the President a first-hand report on the situation over the weekend.

The presidential party witnessed a near automobile accident when they arrived at the country club in the President's limousine.

from public donations totaling more than the \$1,750,000 cost, houses Truman's official papers and mementos of his office. It was expected to become a center of study for students and historians of the Truman period — the end of World War II, the birth of the United Nations, and the Korean War.

Truman insisted that all records — whether reflecting criticism or credit — be included. His papers (Continued on Page 3, Col. 3)

Girard Challenges U.S. Treaty Status

WASHINGTON (UP)—Attorneys for GI William S. Girard have asked the Supreme Court to take the far-reaching step of overturning this country's status of forces agreements with Allied nations.

The attorneys argue the agreements — which allow foreign governments to try U.S. servicemen for certain off-duty crimes committed in their countries — are both unconstitutional and "morally wrong."

To nullify the U.S. — Japanese agreement also would overturn

similar U.S. agreements with European allies. Administration leaders have said this would endanger America's overseas bases program.

The government contends that foreign nations would not allow American troops on their soil if they had no jurisdiction over such crimes as rape, robbery and murder.

One of Girard's lawyers, Dayton M. Harrington, told the United Press it was not the official con-

(Continued on Page 3, Col. 5)

Graham Pleas To Young Set

NEW YORK (UP)—Evangelist Billy Graham last night asked the young people of America if they were "willing to face a firing squad for Jesus" because "that's the kind of young people God is calling on today."

He said the reason Communism is spreading throughout the world is that Americans — young and old alike — do not have "spark and fire" behind their own cause.

At the close of his sermon, which he preached to an over-

(Continued on Page 3, Col. 2)

3-Car Pileup Injures One

A woman passenger in a three-car crash in Andalusia was taken to Lower Bucks County Hospital yesterday afternoon with shock and nervousness.

Bensalem township police said she was Margaret Mulholland, 67, of 301 Louise Avenue, Croydon. Bucks County Rescue Squad took her to the hospital.

She was riding in the second of three cars that piled up at Bristol Pike and Penn St., driven by Samuel J. Mulholland, 36, of the same Croydon address.

All three cars were headed east on the pike. The first was driven by Mary A. Wood, 27, of 1017 Sunsel Lane, Cornwells Heights. She told police she had to stop suddenly when a car ahead of her suddenly stopped to pull off the road. Driving the third car in the crash was Rowland S. Willard, 36, of 253 Hemlock Avenue, Cornwells Heights.

Croydon Blast Is False Alarm

Croydon Fire Co. and Bucks County Rescue Squad were dispatched to the U. S. Concrete Pipe Co. plant, Croydon, last night, for an explosion report that turned out to be a false alarm. A plant explosion was reported to Bristol township police at about 10:30 p.m.

Experts Say Total Below Predictions

Motorists streamed onto national highways today heartened by reports from safety experts that fatalities on the third days of the holiday weekend had fallen short of pre-holiday estimates.

It appeared, in fact, that careful driving might result in a better highway record than a normal period of the same duration at this time of the year. The National Safety Council had forecast 535 deaths by midnight Sunday, and expressed hope the toll would be closer the normal four-day count of 465.

Multiple accidents, however, had already battered the count to 208 a survey by United Press at the 59-hour point, 5 a.m., e.d.t. today, revealed.

Deaths by drowning reached a staggering 125. There was also 1 fireworks death, 7 dead in plane crashes, and miscellaneous deaths numbering 22. The grand total thus far: 363.

The worst traffic disaster, a car-truck collision near Copemish, Mich., killed seven persons Friday night and injured three others. All seven dead were occupants of a car with Arkansas license plates, police said.

There was a rash of deaths involving persons in show business. At Belle Fourche, S. D., a broken ladder rung sent a high stand performer plummeting 82 feet to her death. Mrs. Ethyl C. Hamilton, 55, known as Ethel D'Arcy, was giving her farewell performance before retirement, when the accident happened. At Prescott, Ariz., rodeo performer Odie Sullivan, 27, was trampled to death in a Brahma bull-riding contest.

The traffic toll was boosted yesterday by the deaths of two children, who were struck down by vehicles. Earlier, multiple death accidents had swelled the count.

This morning, state police across the Commonwealth reported automobile traffic "light" except in resort areas and in Butler County where a 38-mile detour on Route 68 between Butler and Zelenople shunted traffic onto heavily-traveled, north-south artery Route 19.

"It's not jammed, but it sure is steady," a state trooper reported.

The latest traffic fatalities: Butler: Susan Bruner, 2, Chiora RD 2, was killed Friday when she toddled in front of a rural mail delivery truck.

Pittsburgh: Melvin Blanch, 3, was injured fatally when he was struck by a bus near his home here.

Seminary Accepts Two Lower Bucks Students

Two Lower Bucks County youths are among the class of 70 accepted by St. Charles Seminary, Overbrook, for entrance in September, the Rt. Rev. Mons. Francis J. Furey, rector, announced. The entrance examination was held June 29.

They are Richard J. Forbes, 1 Schumacher Drive, Bristol Terrace 1, of St. Mark's Parish, Bristol, and John V. Roche, 203 Lower Orchard Drive, Levittown, of Queen of the Universe Parish.

Wood Says Bucks Needs New Industry

Is Bucks County desperate for new industry?

This was one of the questions posed to Franklin C. Wood, the recently appointed director of the Bucks County Development Committee, by Gunnar Back at a radio interview to be broadcast over WFIL in Philadelphia on Saturday afternoon, July 13.

Wood's reply was to the point: "The need for new job opportunities and a broader tax base in Bucks County has become increasingly apparent in recent years, and though we are not in the same predicament as the coal producing regions, the term 'desperate' may well be applied to Bucks County five or ten years hence, if the economic development of the county is not stepped upward." Wood elaborated on the statement by pointing out the employment problems the county is now facing.

Labor Surplus Area
"We have been classified a labor surplus area by the state Department of Commerce for over three months," Wood continued, "and the Bristol office reports the employment in Lower Bucks County has registered continuing declines for the past five months and no upward trend is in sight. Approximately 2,300 unemployed persons are registered with the Lower Bucks office alone. While the situation is not as serious in other parts of the county, central and upper Bucks areas have some employment problems also. Approximately 38 per cent of the Bucks resident employed labor force seek employment outside the county."

Red Purge

(Continued From Page One) careers of the former lieutenants of the late Josef Stalin.

But there was no information available here on the whereabouts of the three former members of the Soviet hierarchy or any official indication of their ultimate fate.

Molotov, Kaganovich and Malenkov already have been accused of intrigue and conspiracy against the party leadership of Nikita S. Khrushchev.

Today Izvestia said in an editorial that the three, particularly Malenkov, were "directly responsible for many years of confusion in the field of agricultural production."

The organ of the Ministry of Culture, Soviet Culture, singled out Molotov for failure to promote cultural progress, an assignment he received after relinquishing the Foreign Ministry in 1956.

"Ignorance" is charged. It also accused Molotov of not "working effectively" in his post as minister of state control. Molotov, it asserted, spent most of his time "composing letters of complaints."

Izvestia reported a mass meeting in Tallinn, capital of Estonia, at which a speaker denounced Kaganovich for "ruthless conceit and arrogance."

Death Notices

VASEY — at Bristol, Pa., July 5, 1957. Eliza, wife of Edward C. Vasey, died at her home, 550 Bath St., last evening following a lengthy illness. She was a member of the Zion Lutheran Church, Bristol. She is survived by her husband, Edward C., 1 son, Carey E., of Fort Loudon, Pa., 4 sisters, Mrs. Maude Eisenberg, Mrs. Rachel Griffe, Mrs. John Flynn, Mrs. Wm. Grunert, all of Bristol, 2 brothers, Frank and Alfred, also of Bristol. Services will be held on Tuesday at 2 p.m. from the funeral home of John C. Black, 314 Cedar St., Bristol. Friends may call at the funeral home on Monday evening.

(More Death Notices on Classified Page)

Educational Aid Activities Planned

Preliminary plans for fund-raising activities are being discussed at summer meetings of the executive committee of the Neshaminy Parent-Teacher Association.

The activities are to aid the association's Educational Assistance program. The later is the new name for the scholarship fund which has been in existence for several years.

Fund Designation
A change in the designation of the fund was put into effect by giving the impression that the awards are scholarships.

Sydney Gangel, president of the Neshaminy PTA, points out the purpose of the fund is to encourage high school graduates to enter college. The fund awards are not enough to finance a scholarship but they frequently enable a student to go to college who could not have done so otherwise.

A presentation by the Langhorne Players, square dance, coffee party and card party are among the events being scheduled for the upcoming season.

Attending Meeting
Attending this week's meeting of the PTA executive committee were Sydney Gangel, president; Milton Sollitt, treasurer; John powers, vice-president; Stanley Howell, assistant principal of Neshaminy High; Horace Goodwin, past vice-president; Matthew Sterling, budget and finance chairman; Randal Lair, past vice-president; Miss Georgeanne Staehle, high school guidance director; Charles S. Coates, parliamentarian; Mrs. Calvin Van Sant, corresponding secretary; Mrs. Milton Sollitt, publicity chairman.

Library
(Continued From Page One) alone number three and one-half million.

The library first was opened to the public briefly Friday as Truman, beaming and obviously delighted, took 200 persons on tour, played a piano solo, and received gifts for the library ranging from a set of master keys to an organ.

The former President also exhibited a sun dial in what will be the rose garden of the library, and gave a brief dissertation on how to tell time.

It took the country 40 years to set up time zones, he said, then "some crazy goof got this idea about Daylight Saving Time but I'm not going to pay attention. I'm going by this sun dial."

One-Story Structure

The library is of Indiana limestone facing, and is in a crescent or "J" shape on the crest of a knoll. It is a one-story building with a full basement containing 70,000 square feet of floor space. Public areas include an auditorium seating 250 persons, two museums areas, a replica of the President's office in the west wing of the White House, and library space. Truman gave his personal collection of 10,000 books to the library, but it was expected that most of the study there would be of the presidential papers by university students and historians.

"The president's job," said Truman, "is the most powerful in the history of the world. People should understand it better. I hope youngsters will come here and study and become better citizens."

Graham

(Continued From Page One) flow crowd of 19,206 in Madison Square Garden, Graham departed from his custom of asking only for "decisions for Christ" and asked young people to come forward to make "commitments" for Christ. About 1,000 responded.

To his call for "decisions," 546 persons came forward, bringing Graham's total since his New York Crusade began 50 days ago to 27,552. An estimated 874,800 persons have attended his meetings.

The evangelist said his New York Crusade had "truly" become an American crusade, through his Saturday night television programs, carried live from the Garden on a coast-to-coast (ABC) network of 59 stations. Another of the telecasts is scheduled tonight (8-9 p.m. e.d.t.).

\$10,000 Suit Results From Trevose Mishap

Edward Karpinski, Trevose quarry owner, is being sued for \$10,000 for injuries and car damages allegedly caused by one of his truck drivers.

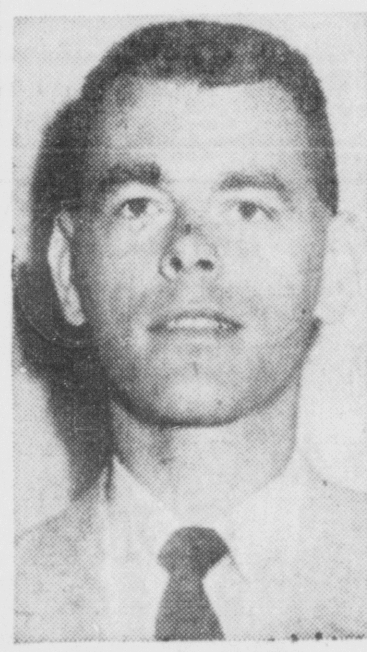

John Seemiller, Magnolia Ave., Trevose, is suing Karpinski for an accident which occurred on Street Road on June 17, 1955. Seemiller claims that Robert Leonard, Karpinski's driver, went through a stop sign, cut wide on the road and collided with his car.

He suffered a severe injury to his right knee and lacerations and abrasions on his body.

The \$10,000 that Seemiller is asking includes \$1,042 for repairs to his car; a \$356 medical bill; and \$2,500 in wages he lost because he could not work for 23 weeks.

Czech Stalinists May Get Axe In New Purge

In New Post

DONALD BOLLES

Library Board Names Public Relations Man

The board of directors of the Levittown Public Library, Inc., today announced the appointment of Donald F. Bolles of 15 Malow Lane, Magnolia Hill, Levittown, as public relations director.

Mr. Bolles is a 29-year-old veteran of the Korean war and has worked on the staff of the Bergen Evening Record of Hackensack, N.J. He has been with the Associated Press for the past five years with assignments in New York, Newark, and presently in Trenton.

An honor graduate of Beloit College in Wisconsin, he was editor of the college newspaper and recipient of the president's award for achievement.

He is the son of Donald C. Bolles, public relations director for the National Council of Churches in New York.

In announcing the appointment, library president, Charles Fink said, "We hope, through this post, to carry to the people of Levittown and the surrounding communities the need for, and the advantages of, this privately financed project."

Rabbi Bergman Accepts Call To Sharon Temple

Rabbi Robert Bergman, spiritual leader of Temple Shalom of Levittown, has accepted a call to the pulpit of Temple Beth Israel, Sharon, and will take up duties there Aug. 1. The Sharon congregation will this year mark its 80th anniversary.

Rabbi Bergman came to Temple Shalom two years ago as the first full-time Rabbi of the congregation. Rabbi Bergman is a graduate of the University of Cincinnati, and worked on doctorate research at the University of Jerusalem on the topic of Jewish Education.

He spent three and one half years in Israel doing graduate Educational Research under Professor Ernest Simon. He was also

Tech School Building Bids To Be Opened

Bids to build the Bucks County Technical High School will be opened by the joint technical school committee Tuesday night at the Fallsington elementary school.

The new school, designed by Architects Micklewright and Mountford, will accommodate 600 students, 300 at a time, alternating their studies there with classes at their local high schools. It is expected to be opened in September, 1958.

The building site is on Wistar Road, near Newportville-Fallsington Road. It will be constructed under the direction of a school authority, headed by Harry Dubel, of Yardley.

The school will offer 81 trades to boys and girls of Pennsylvania, Delaware, Morrisville and Bensalem High Schools.

Seven school districts are represented on the joint board, Bensalem, Tullytown, Lower Makefield, Falls, Morrisville, Bristol township and Yardley. Chairman is Howard C. Taylor, of Bristol township. Principal of the technical school is George Schaffer.

Girard

(Continued From Page One) cern of the attorneys as to what might happen to the bases if the court finds in Girard's favor.

"If any nation won't have our troops on its soil except on its own terms," he said, "maybe we will bring them home."

Girard's attorneys said in a brief filed with the Supreme Court yesterday that U.S. servicemen were stripped of "every vestige of constitutional right" by status of forced agreements.

The brief was Girard's answer to the government's demand that the GI be tried by a Japanese court on manslaughter charges for killing a Japanese woman on a military firing range. The court will hear oral arguments in the case Monday.

Leader Signs Bill For Rest Spots

HARRISBURG, July 5. (UP)—Construction of at least one roadside rest in each of Pennsylvania's 67 counties is authorized by legislation signed by Gov. George M. Leader.

The new comfort spots would be built along state highways and would be in addition to those roadside conveniences already in operation.

Up To 8,000
The department was authorized to spend up to \$8,000 for the cost of obtaining land and building the facility. The money would come from the Motor License Fund. The authorization also stipulated that the rests are to be surrounded by at least 1,200 feet of land on which commercial advertising would be forbidden.

Leader also signed measures Friday which would:

—Make it a misdemeanor for a husband to leave his wife or children without reasonable cause or to neglect their support. The new law also provides that the court could order the husband to pay support.

Exempt From Fees
—Exempt young men's and women's Hebrew associations and blind war veterans from payment of vehicle registration fees. Present legislation exempts scout groups, churches, veterans organizations and paralyzed veterans from such fees.

—Provide regulations governing the preparation and sale of packaged soft drinks and fruit juices. The new law spells out controls for licensing, labeling, sanitation and control of ingredients, along with establishing penalties for violators.

Zoning Order 'Color Blind' Driver Is Held

Clarence Cook, 2876 Street Road, Edgington, this week filed a court appeal against an order by the Bensalem Township zoning board of adjustment which wants him to remove "four or five" trucks from his property.

Cook operates a construction hauling business on his two acres of land. The property, through an ordinance passed Dec. 6, 1954, is zoned R-1 Residential.

Cook, who bought the property in 1952, said he has been parking his trucks there since a short time after he bought it. He also stockpiled lumber and cinders on the property, awaiting orders.

He said that on Dec. 6, 1954, Joseph Murdock, former zoning officer, notified him he was violating the ordinance, but later, Murdock issued him a zoning permit to build a garage for the vehicles.

In September, Joseph Sloan, new zoning officer, told him to remove the trucks, and on Dec. 6, Sloan informed him the permit issued by Murdock had been revoked.

Weather

(Continued From Page One) tures in the 40's and 50's in extreme western sections and in the mountains and to the upper 50's elsewhere.

A large mass of cool, dry air centered over the Mississippi Valley and flowing cool air across the state was expected to be the main factor influencing today's weather. This large high pressure system will continue to affect weather for the next few days bringing clear skies and comfortable temperatures tomorrow and possibly Monday.

Tomorrow will be just a little warmer with temperatures ranging from the very low to the middle 80's generally across the state.

Khrushchev Plans Visit Within Week

EDITOR'S NOTE United Press staff correspondent Russell Jones covered the uprisings in Poland and Hungary last year. He was the only American reporter in Budapest at the height of the revolt. He is currently on assignment in Eastern Europe. In the following dispatch from Vienna, major Western listening post to iron curtain happenings, he reports the Soviet political upheaval may be followed by the ouster of Stalinists from Communist Czechoslovakia.

By RUSSELL JONES
United Press Staff Correspondent

VIENNA (UP)—Nikita S. Khrushchev, fresh from his victory over "dogmatists" in the Kremlin, will insist Czechoslovakia follow suit in "cleaning house."

Khrushchev and Premier Nikolai Bulganin are scheduled to leave Russia for Prague Monday.

Czechoslovakia is one of the last of the major satellite nations run by old-line Stalinists. Its rulers have shown no signs of changing their ways since the death of Josef Stalin and the repudiation of the "cult of the individual."

Same Crowd In Power
The only gesture made by the Prague regime toward following the "Khrushchev line" was to demote Alexei Cepicka from the post of defense minister to head the patent office and to oust Ladislav Stoll as minister of culture. But both men remain as members of the party in good standing.

From President Antonin Zapotocky and Prime Minister Vilem Strosnyk on down through the ranks of both party and government, however, the same old crowd is still in power.

These are the men, who under the late President Klement Gottwald, overthrew the democratic government of Eduard Benes, and in 1952 hanged Rudolf Slansky and 10 other "nationalist Communists."

Man Appeals

(Continued From Page One) tered in New Jersey. He said he had a New Jersey driver's license which listed his home address in Lower Makefield, explaining he was told the license was valid in Pennsylvania.

After his fine, Rednor said he applied for and received a state license. The license was suspended when the transcript of the fine was submitted to Harrisburg.
